Dear 7Geese Manager

I am looking to work in a fun, challenging, dynamic environment. After I found the Intermediate Back End Web Developer position on Indeed, I visited the 7Geese Homepage. I have a passion for back-end web development and I Would like to work with an enthusiastic team

I believe that my 3-year experience with full stack engineer can make me a valuable asset to 7Geese. I have 3 years experience with PHP, MySQL, HTML, CSS, and Javascript. I also have a lot humor and communication skills.

I have a capacity to acquire new skills and frequently learn new technology. I love all programming languages and new technologies. So I have a strong passion for work. (Swift, PHP, JavaScript, Python, Node.js ... etc) I always try to understand the code exactly. So I dislike the following...

Why would I want to work with 7Geese?

- I wanna excited to learn and share with awesome colleagues
- I have a passion for technology, the desire to champion ideas and share your knowledge

Sincerely,
