Front-End Developer

Dear Hiring domain 7 Manager

After I found Front-End Developer (Wordpress) position on Indeed, I visited domain7 Homepage. I have a ability HTML & CSS and Wordpress (This is my personal project on Wordpress <http://wesound.love/>) and I can do extensive browser testing across multiple browsers/devices and operating systems

I have a capacity to acquire new skills and frequently learn new technology. I love all programming languages and new technologies. So I have a strong passion for work. (Swift, PHP, JavaScript, Python, Node.js ... etc)

Why would I want to work with domain 7?

- Manage and maintain wiki with GitHub!
- Amazing design website and team!
- I can contribute to web design and CMS development!
- Contributing to society through Podcasts and blogs

Sincerely,
