Front-End Developer

Dear Convertus Digital Manager

I am looking to work in a fun, challenging, dynamic environment. After I found the Intermediate Back End Web Developer position on Indeed, I visited the Convertus Homepage. I have a passion for back-end web development and I Would like to work with an awesome team of people

I believe that my 3-year experience with full stack engineer can make me a valuable asset to Convertus. I have 3 years experience with PHP, MySQL, HTML, CSS, and Javascript. I also have a lot Knowledge of ShellScript and Unix command line

I have a capacity to acquire new skills and frequently learn new technology. I love all programming languages and new technologies. So I have a strong passion for work. (Swift, PHP, JavaScript, Python, Node.js ... etc)

I always try to understand the code exactly. So I dislike the following...

Why would I want to work with Convertus Digital Inc?

- Excellent humor and the cute little puppy
- I can contribute to Convertus with PHP, MySQL, Javascript and WordPress
